Safety

To prevent injury or damage, read and understand these instructions before installing or using the Soft Serve Lamp. Misuse of the device can result in serious damage to property and severe injuries or worse. Instructions and other information supplied must be kept for future reference and must also be kept with product if it is passed on to a new owner. Soft serve Lamp is only designed to be used indoors in domestic environments or environments of a similar nature (shops and offices for example). This device should be kept away from children in order to prevent it being used as a toy.

Information & troubleshooting

For product related questions, technical assistance or ordering physical user instructions, contact Crème AB by using contact information supplied in these instructions.

Intended use

The device is only intended to be used indoors. It shall only be used with the components supplied with the Soft Serve Lamp or sold by Crème AB with Soft Serve Lamp defined in their intended use. No modification of the product is allowed, as it could make it hazardous. Crème AB is not liable for material damage or personal injury caused as a result of not following these instructions. In such cases, the warranty will be void.

Graphic symbols

For safe and proper use, follow these instructions. Keep them for future reference.

By affixing the CE marking to a product, a manufacturer declares that they are responsible that the product meets all the legal requirements for CE marking, which include requirements on health and safety. If an identification number is placed by the CE mark, it means that the corresponding notified body has performed a conformity assessment on the product.

The WEEE symbol are placed on electrical devices and equipment to clearly display that they are not to be considered and treated as unsorted waste. These products must be collected separately, the implementation of this collection varies depending on national laws.

Indicates a hazard with a level of risk which, if not avoided, may result in death, serious injury, or damage to the equipment or its surroundings.

Indicates that the product is only suited for indoor use. Uses other than intended use could be hazardous.

Installation

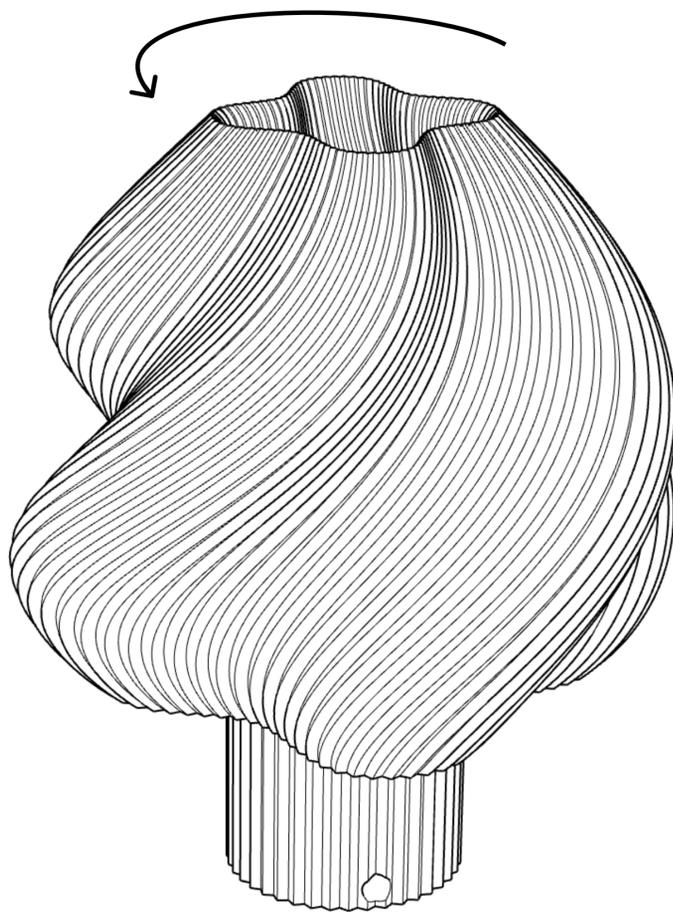

When first installing the lamp, keep all components and material that includes information for the product (within and on the packaging).

- Be careful when you stand near the power cable.
- Loose cables can create tripping hazards.
- Make sure not to damage the power cable.
- Do not use a deformed or damaged power cable.

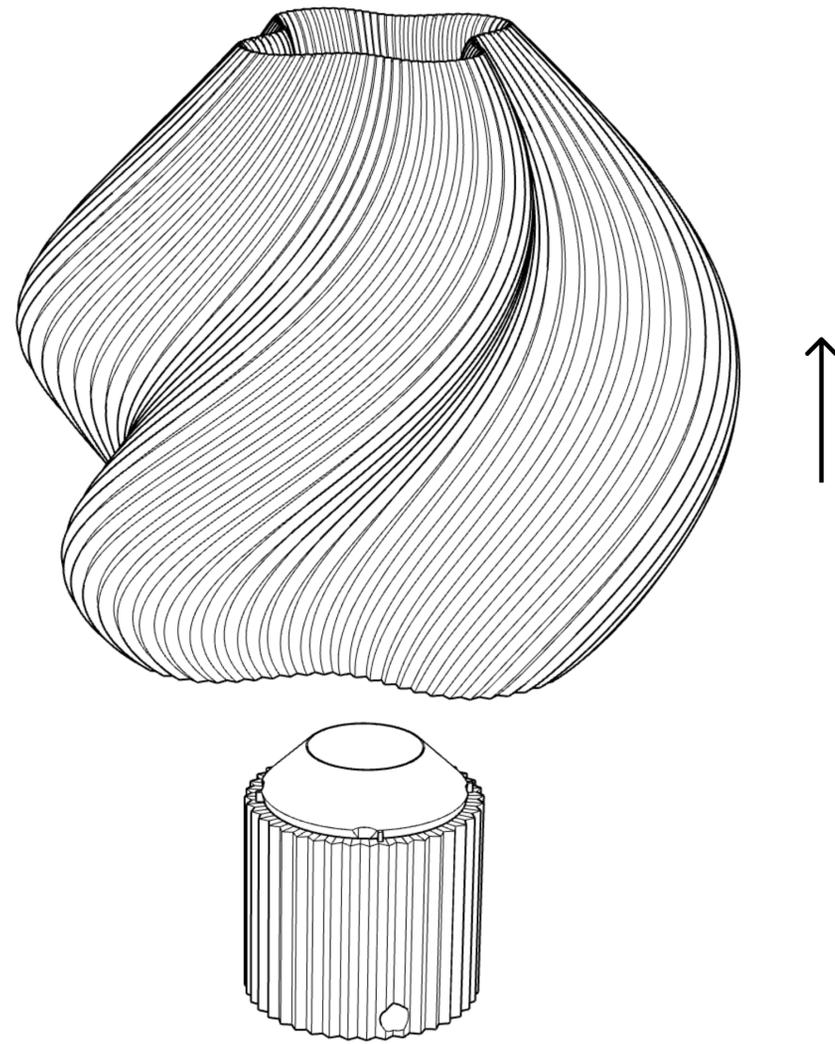

This lamp is not designed for looping-in.

Disassemble of hat

Step 1.

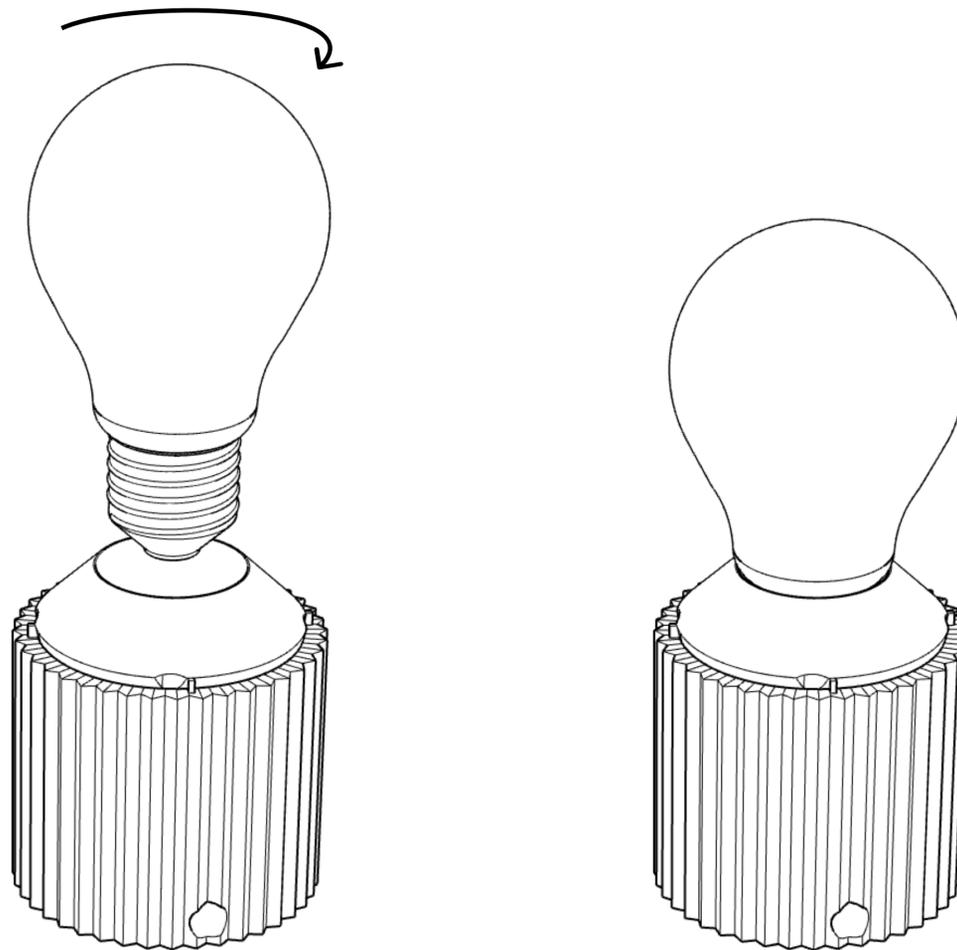

Grab the foot and turn the hat counterclockwise.

Step 2.

Lift the hat to disassemble it from the foot.

Light bulb

Fit the light bulb to the lamp holder and ensure that it sits tight.

Maximum 7w.
E27 LED light bulb.

Use

- Do not use device underwater. Failure to do so can result in serious injury or death.

Maintenance

- Unplug all connections before cleaning the device.
- Do not use excess water while cleaning the device.
- Avoid getting water inside the stand.

Only use dry cloths to clean all parts of the device. If the cable is damaged or destroyed, Crème AB or a similar qualified person must replace it. When the light source of this device is used up, sort it as waste according to national laws. Replace bulb with appropriate E27 bulb.

Disposal

Electrical equipment and packaging should not be disposed together with household waste material. Sort all waste in accordance with national laws.

Technical data

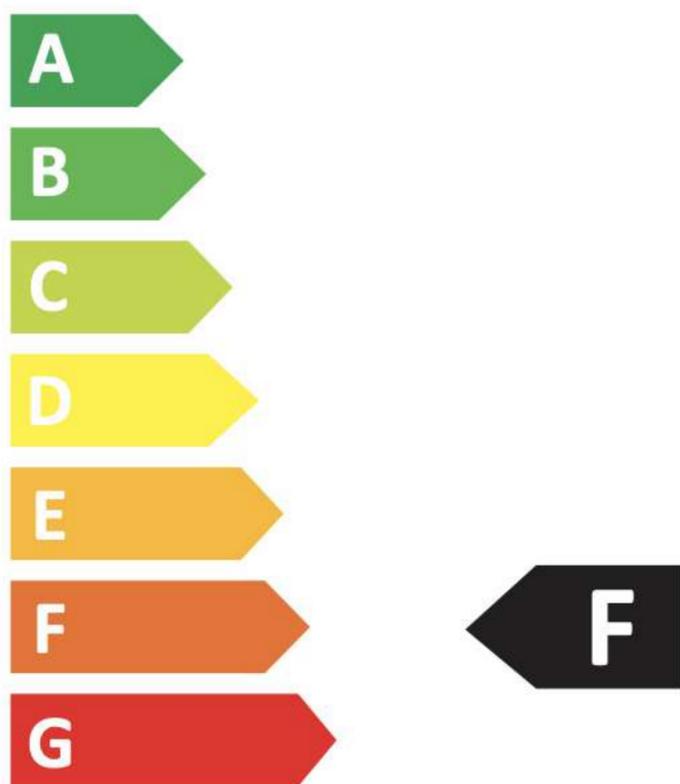

Electrical equipment and packaging should not be disposed together with household waste material. Sort all waste in accordance with national laws.

This product contains a light source with energy efficiency class F.
